

Forever Smiles Sponsorship Program

Forever Smiles is asked to support numerous worthwhile causes and charitable events each year. In an effort to honor as many requests as possible, we have instituted a **Sponsorship Program**.

We would love to learn about your organization or club, and we would appreciate an opportunity to tell your group about us, as well.

We offer fun-filled, educational activities to local Boy Scouts and Girl Scouts groups, public and private schools, religious groups and other community and civic organizations. Our field trips are appropriate for children ages 7 to 13.

What we need from you!

To apply for a donation or advertisement, please tell us about your event/cause in writing at least six weeks prior to your deadline. Along with your request, please schedule a date to bring your group to Forever Smiles for an office tour.

Send requests via email: anna@razdolsky.com

What you'll get from us!

We will introduce your group to the dental and orthodontic professions, while simultaneously educating them about tooth straightening techniques, teaching them the importance of oral hygiene, and demonstrating how modern technology is integrated into the dental and medical fields.

All participants will receive gift bags filled with toothbrushes, toothpaste, floss and age-appropriate toys. We also will present a check to your organization leader to support your cause.

There's also a chance for you to receive more contributions for your organization: we will donate additional funds when any member of your group or their immediate family member schedules an evaluation and begins orthodontic treatment with us.

We look forward to being a part of helping your organization achieve its goals and providing your group with educational and financial support, and- of course- beautiful smiles.

If you have any questions, please call Anna R. at the office (847) 215-7554; or on her mobile phone: (847) 980-7837.
